Dr. Ricardo Finochietto,
Buenos Aires.

Dear Dr. Finochietto:

I have read with much interest the two reprints you have been so good as to send me concerning Prof. Finochietto's modification of the Delbet Apparatus, and I am interested to see that Delbet's principle is being so widely used; and I look forward with pleasure to seeing some time your detailed report of the end-results which you have secured by this method.

Very truly yours,

Astley P. C. Ashhurst
